Important: Safety information about video games

About photosensitive seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause photosensitive epileptic seizures while watching video games. These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Adults who allow teenagers (or children) to play the games should watch for or ask their children about these symptoms as they are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by playing in a well-lit room and by not playing when you are drowsy or fatigued. If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Play safely

Take a break from playing games at least every half hour. Stop playing immediately if you begin to feel tired or if you experience an unpleasant sensation or pain in your hands and/or arms. If the condition persists, consult a doctor. Use of vibration can aggravate injuries. Do not turn vibration on if you have any ailment in the bones or joints of your fingers, hands, wrists, or arms.

CARE AND MAINTENANCE

Your game card and game deck are products of superior design and craftsmanship and should be treated with care. The suggestions below will help you protect your warranty coverage and enjoy your game for many years.

- Keep the game card and game deck dry. Precipitation, humidity and all types of liquids or moisture can contain minerals that will corrode electronic circuits.
- Do not use or store the game card and game deck in dusty, dirty areas.
- Do not store the game card and game deck in hot areas.
- Do not store the game card and game deck in cold areas. When the game deck returns to its normal temperature, moisture can form inside the game deck and damage electronic circuit boards.
- Do not attempt to open the game card or game deck other than as instructed in the user guide.
- Do not drop, knock, or shake the game card and game deck.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the game card or game deck.
- Keep the game card out of the reach of small children.

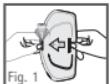

All of the above suggestions apply equally to your game card, game deck, and any enhancement.

WELCOME TO SIMVALLEY!

Hi y'all. This here is Uncle Hayseed welcoming you to the friendliest little town in the Sim world - SimValley. I'm real glad you accepted my invitation to come and spend the Summer with us. I know you'll have a pleasant stay and I'm sure you'll agree that though SimValley is small and the pace is a mite slower here, there's plenty of things to see and do. You'll see - your days here will fly by like a tin-roofed shack in a tornado. Oh - and don't worry about the locals. They're a quirky bunch, but they'll learn to love you if you treat them nicely.

Just a few words of advice from your favourite wise old uncle: make sure you take care of yourself and tend to your needs so that you can put your best foot forward. Folks around here don't always take to strangers right away, so it's best to keep yourself presentable. You might think Sims can't smell you over the wafting smell of fertilizer or that anything goes now that you're in the great outdoors, but think again. I know you weren't raised in a barn, so don't act like it.

Oh - and just one more thing: nobody messes with my chickens. Beware of provoking them because it won't just upset me, it might get you into trouble with the wily ol' rooster of the flock.

For more info about this and other titles, visit EA GAMES™ on the web at www.eagames.com

GETTING STARTED

The pace in SimValley is slow and easy.

Start your journey from the Main menu by creating a Sim.

MAIN MENU SCREEN

Create-a-Sim

Create your own Sim from head to toe.

Load-a-Sim

Load a previously created Sim.

Options

Adjust music and sound effect volumes, choose and change the selected language, or view the game credits.

Quit Game

Exit the game.

CREATE-A-SIM

Choose your Sim's name, hair style and colour, gender, clothes and determine their personality traits.

To name your Sim:

1. Press the Controller Key to highlight the character you want and then press the Left Selection Key.
 - To delete a character, press the Right Selection Key.
 - To toggle between lowercase and uppercase, press the 3 Key.
2. Continue adding characters until you have completely spelled your Sim's name. Then highlight DONE and press the Left Selection Key to advance to the Appearance screen.

APPEARANCE SCREEN

To adjust your Sim's appearance:

1. Press the Controller Key \leftrightarrow to highlight one of the appearance items and then press the Controller Key \leftrightarrow to cycle through the options for that item.
2. After you've finished adjusting all of your Sim's appearance options, press the Left Selection Key to advance to the Personality screen.

PERSONALITY SCREEN

To adjust your Sim's personality:

1. Highlight a personality trait and then press the Controller Key \leftrightarrow to move the slider. The more bars that are filled, the more your Sim's personality reflects the characteristics on the right. The fewer the bars filled, the more they reflect the traits on the left.
 - You have a limited number of personality trait points to assign to your Sim. The more points you use on one trait, the fewer you have for others.
2. Highlight your Sim's astrological sign at the bottom of the screen and press the Controller Key \leftrightarrow to choose a sign.

3. When you're finished, press the Left Selection Key to advance. A prompt will appear, asking you to confirm that you want to use this Sim. Press the Left Selection Key to confirm and advance to the Game screen.

- You must assign all of the available personality points to continue.

PLAYING THE GAME

Though it's not the biggest town in the world, some Sims still get a bit disoriented when they first arrive in SimValley. This section helps you and your Sim get your bearings.

GAMEPLAY SCREEN

CHARACTER MENUS

- Press the * Key to bring up the Goals, Popularity and Pockets menus for your Sim.
- Press the 2 and 3 Keys to switch between Character menus.

GOALS MENU

POPULARITY MENU

Your Sim's personality
The name of the Sim highlighted in the Friendship panel

Your Sim's skill levels

Your Sim's friends and acquaintances

This bar shows how friendly you are with the Sim shown. More green and a higher number mean you're better friends. More red and a lower number mean you don't like each other as much.

The Popularity menu shows how many friends and acquaintances your Sim has and how popular they are in town overall.

POCKETS MENU

This menu lets you know what your Sim's got stashed away in their pockets. Your Sim can only hold so many things at once, so be sure to clear out the less essential stuff now and then by putting items in your house, giving them away, or selling unwanted items.

Tip: Collect these items and sell them to the Chem Lab for a quick profit.

PAUSE MENU

- To pause the game, press the Right Selection Key.
- Press the Controller Key \diamond to highlight an option, then press the Left Selection Key to choose it.

Show Map

View a map of the neighborhood.

- To view the name of a location, press the Controller Key until the cursor is over the building and then press the Left Selection Key. The name appears at the bottom of the screen.

Catalog

View items, including Appliances, Decorative, Electronics, Furniture, Recreation, and Utilities that your Sim has found to date. The "?" icons let you know how many items are left for your Sim to discover in that particular category. Some items are rare and hard to find. See if you can find them all.

Jobs

View the mini games, check what is needed to get promoted, and view the hours that each game is available.

Options

Set various game options, including language selection and volume controls.

Save Game

Save your current game (see *Saving and Loading* on p. 15).

Quit Game

Quit the game and return to the title screen.

- Press the Right Selection Key to return to the Game screen.

NEEDS

Your Sim has a few simple needs. Ensuring that your Sim's needs are met helps them work better and behave more pleasantly...

Hunger

Eat a snack or meal, or buy something from one of the town shops.

Hygiene

Keep your Sim squeaky clean by using the shower or sink.

Energy

Charge your Sim's batteries by napping and sleeping or drinking a cup of energising espresso.

Social

Sims' social needs are met by visiting with other Sims. So make the rounds and make some friends.

Comfort

Relax a minute. Your busy Sim is rejuvenated by sitting in a comfy chair or sofa or by catching a few ZZZs.

Bladder

If your Sim's gotta go, they've gotta go. Get them to a toilet in a hurry or they'll suffer the embarrassing—and messy!—consequences.

- Sims who don't make it to the bathroom and are caught short in public can expect to get arrested for their unseemly behavior.

Fun

Balance out your Sim's work and play. If your Sim spends all their time working without any playtime, they'll turn grumpy in a hurry. Sims enjoy reading, dancing, watching TV, and more.

Room

Your Sim is happiest in a tidy house. Make sure their house is clean and that they spend enough time in the home or they just might get homesick.

PASSING OUT

Should you fail to help your Sim meet their needs, your Sim might pass out from exhaustion or hunger! Your Sim suffers a decline in their motives/needs, but life goes on pretty much as it did before. Depending on where your Sim is in the game, they are transported to a spot where they can recuperate and get back on their feet.

[10]

- Your Sim can also pass out due to fire or electrocution. Be careful!!

THE MISSIONS

There are five levels in *The Sims Bustin' Out™*. Each level can have up to six missions and each mission can have as many as six goals.

- Press the * Key to see what your goals are for each level. You can only view goals for levels that are unlocked.

MISSION 1: THE BARN

Fresh off the bus from the hustle and bustle of SimCity™, your Sim takes a deep breath of fresh country air and reads a note from Uncle Hayseed. Their first stop: Uncle Hayseed's farm. At Uncle Hayseed's your Sim gets settled in and inherits their first SimValley residence. That's right: the creaky, drafty, dusty and only slightly smelly old barn. It's not exactly the lap of luxury, but you can't beat the price. There are a number of tasks that your Sim can help out with around the farm to get acquainted with how things are done in SimValley. Remember to check your goals periodically to stay on top of things

- Mower Madness mini game is available in this level (see *The Mini Games* on p. 12).

MISSION 2: THE BARN REDUX

Once you've settled into the farm, it's time for your Sim to branch out into life beyond the farm fences. In this mission, Uncle Hayseed needs some help recovering his escaped chickens. This venture takes your Sim out into the neighbourhood where they meet some of the locals and get acquainted with the lay of the land around the farm. If your Sim can accomplish this level's tasks, it might be time for them to look for a newer - and better smelling - home.

- The Smoothie Slider mini game is available in this level (see *The Mini Games* on p. 12).

MISSION 3: THE CLOCK TOWER

At last, a real home without the smell of manure and the squawk of roosting chickens! The central location of your Sim's new home in the Clock Tower makes getting around town more convenient. Plus, the view of and from the balcony is to die for. If your Sim networks with the right people and works hard, in time they might be able to move on to an even nicer place.

- The Bait Flinger and Powerlifter mini games are available in this level (see *The Mini Games* on p. 12).

MISSION 4: WATERFRONT VILLA

Your city slicker Sim is finally being accepted by the locals and can make their way from the library to the Condemned dance

club. Through hard work and saving their Simoleons, your Sim is finally ready to be a homeowner! These small homes need work, but they're a great value for a first home. Continue to work hard at developing skills, earning a few extra Simoleons and building relationships with the other residents of SimValley. This first home might prove to be just a step towards another, more impressive home.

- The Jam Session and Pizza Pandemonium mini games are available in this level (see *The Mini Games* on p. 12).

MISSION 5: IMPERIAL ESTATES

Congratulations! Your Sim has done very well! They've worked hard enough to afford the swankiest house in SimValley. Your Sim wakes up to a glorious view of their poolside estate and has the space and resources to host the hottest parties in town. But that's not all - if your Sim can complete the goals in this level, the rewards could be "unexpected"!

- The Cliff Diver X and Petri Dish mini games are available in this level (see *The Mini Games* on p. 12).

PARADISE ISLAND

Even Sims need a little R and R sometimes. When your Sim has had enough of their nine-to-five, set them up in their very own holiday home on Paradise Island.

Unlocking Paradise Island:

From the auction computer in the SimValley library, Bluetooth connect your N-Gage Gamedeck to unlock Paradise Island (see *Bluetooth Multiplayer Game Play* on p. 13).

Tip: Once unlocked, look for a small motorboat along the docks to take you to the Island. The location will forever be a second home for your Sim to enjoy!

THE MINI GAMES

There are nine mini games, detailed below, through which your Sim can earn some cold, hard cash.

Tip: Sims can also earn money by collecting various items found throughout the game (aluminum cans, glass jars, etc.) and selling them at the Chem Lab. Prices can change daily so get 'em there fast!

**Mower Madness**

Deftly maneuver the lawn mower, taking down the nasty weeds while avoiding Uncle Hayseed's favourite flowers and steering clear of mower-wrecking rocks—all within the allotted time.

Smoothie Slider

Help out at the Biker Bar by slinging the sauce out to thirsty patrons. Serving the correct drinks earns better tips. Also, the more served, the merrier your Simoleon balance will be.

[12]

**Bait Flinger**

Navigate the peaceful waters of SimValley lake with the new SimLure2000. Dexterously controlling this lure from the dock, your Sim's goal is to catch as many fish as possible. The bigger the fish, the higher the selling price.

Powerlifter

This game is all about brawn, not brains. Your Sim must lift their weights as many times as possible within the time limit. Liftmore for a heavier payout.

**Jam Session**

If your Sim has the music in them, this might be their favorite way to earn Simoleons. Keep in time and in tune with the music and your Sim earns some notes—of the Simoleon type.

**Pizza Pandemonium**

This game challenges your Sim to make the perfect pizza. Create a pizza identical to the demo pie within the given time and your Sim earns some dough.

Cliff Diver X

Impress the crowd and the judges with your high-diving skills. You've three dives in which to perform as many tricks as possible before hitting the water. If the judges rate your Sim's dives higher than the competition, your Sim wins some prize money.

Petri Dish

Your Sim must eliminate the amoebas in the dish. They must be linked by color, but watch out for the mutagens—you might just lose your link.

Darts

Use the Controller Key to guide the dart cursor to the desired area of the dartboard, and hit the 5 Key to throw the dart. The points you score are subtracted from your total. Go from 201 points to 0 points as quickly as possible to win!

BLUETOOTH MULTIPLAYER GAME PLAY

BLUETOOTH MULTIPLAYER AUCTIONS

Bluetooth Auctions allow you and one other player to trade or sell objects to each other using your N-Gage game deck's wireless capabilities.

To participate in an auction, visit the SimValley Library and use the computer in the center of the library's first floor.

NOTE: When you interact with the computer, if Bluetooth is turned off, you will receive a message giving you the option to turn it on. Bluetooth must be enabled in order to participate in multiplayer online gameplay.

The Library computer offers three options:

1. Host Auction

- Every auction requires a host. The first player to connect should choose "Host Auction." This will enable other players to communicate with your N-Gage game deck and join your auction.
- Your N-Gage game deck will wait for a player to join your auction. When a player wishes to join, you will be asked whether or not you accept their request. To return to the Library, press the 7 Key.

2. Join Auction

- If you know that a friend is hosting an auction, or you'd like to see if anyone nearby is hosting an auction, select "Join Auction."
- Your N-Gage game deck will search for auction hosts in the nearby area. If you wish to cancel, press the 7 Key.

3. Change Bluetooth Name

- Your Bluetooth name is the name other players see when you are hosting or joining an auction. Select this option to change your Bluetooth name.

Auction Time

After reading the instructions, both auction participants will see their Pockets inventory screen. The first player to choose an object by pressing the 5 Key will become the auctioneer. Using the Controller Key, the auctioneer can set their asking price as the bidder sets their bid price. If the bid and the asking price meet before time runs out, the auction is successful! To exit the auction, either player can press the 7 Key.

N-GAGE™ ARENA

To connect to the N-Gage™ Arena, you must have active service from a cellular telephone provider.

Note: Data transfer rates may apply;
consult your provider for details.

Unlocking the N-Gage™ Arena

To unlock the N-Gage™ Arena, find the following objects in SimValley:

- A "mobile phone" object
 - Complete the first 2 tasks in Mission 1 to obtain one.

[14]

- An N-Gage™ Arena compatible game card for your mobile phone object
 - 2 are hidden somewhere in SimValley.
("Snake" and "Blocks")

NOTE: You can also collect a third game card for your mobile phone object. Instead of allowing you to connect to the N-Gage™ Arena, the third game card will give you the ability to challenge other Sims to a game of "Tennis".

Using the Mobile Phone Object to Access the N-Gage™ Arena

Once you've collected a mobile phone object and at least one game card for it, you can direct your Sim to use them to connect to the N-Gage™ Arena. Highlight the phone in the Pockets menu and press the 5 Key to select it. Choose the "N-GAGE™ ARENA" option from the menu that appears, and then choose the name of the game you wish to play in the N-GAGE™ Arena.

Signing In to the N-Gage™ Arena

1. Select a WIRELESS ACCESS POINT

- Choose a wireless access point from the list of options using the Controller Key.

2. Create a NEW ACCOUNT

- If you have never logged into the N-Gage™ Arena before, you will need to create an account.

NOTE: If you have created an N-Gage™ Arena account for another game, do not create a new account. Only one account is allowed per N-Gage game deck.

3. Log In

- Enter your username and password using the keypad.

Using the N-Gage™ Arena

The N-Gage™ Arena allows players to download other players' best performances and compete against them in an attempt to beat their time in competitions called Shadow Racing. Every victory will earn you points, and every loss will cost you points, all depending on the rank of the player you are challenging.

If you win, you will be able to send a message to the player you have defeated - why not challenge them to a rematch?

Tip: By playing in the N-Gage™ Arena it may also help you to unlock some custom objects.

- To exit the N-Gage™ Arena, press the 7 Key.

SAVING AND LOADING

Save a Sim's progress and continue playing at a later date.

To save a game:

1. From the Pause menu, choose SAVE GAME.
The Save Game screen appears.
2. Press the Controller Key to choose a slot and then press the Left Selection Key.

To load a saved game:

1. From the Main menu, choose LOAD-A-SIM.
The Load Game screen appears.
2. Press the Controller Key to highlight the Sim you want to load and then press the Left Selection Key.

NOTE: To delete all saved data (including language preferences), select QUIT GAME from the Main Menu. You will be presented with the option to DELETE ALL SAVED GAMES. Select that option with the 5 Key and confirm the choice when prompted. This will permanently remove all saved game data related to *The Sims Bustin' Out* from your N-Gage game deck.
